The webpage you are viewing is trying to close the window

Question

When using Internet Explorer 7 why do I get the message that "The webpage you are viewing is trying to close the window." when clicking on 'Continue Shopping' in the PayPal Shopping cart?

Answer

Internet Explorer 7 (IE7) users will see this popup when clicking on the 'Continue Shopping' button for the PayPal Website Payments Standard Shopping Cart.

This is an expected behavior based on IE7 default security settings and some changes introduced to the PayPal Shopping Cart to better support tabbed browsing.
